

Subject: Your Dog Suffering With Arthritis? You Gotta' Try This!

Hi. My name's John and I'm a life-long doggy daddy.

I'm dad to Chip. He's a black English Lab going on 14. And he has Arthritis...

I wake up to Chip lying by my side and our "morning snuggles" session starts the day off right – lots of love.

We go on a couple of walks every day but those walks aren't as much fun as they used to be.

He can't talk but he sure can express himself. He hurts. I can see it on his face. And that might be the worst part...

I love Chiperdoodle with all my heart and it just breaks over and over again to see him like this.

My friends suggested I try something that helped their older dogs become more lively and happy.

And that's exactly what I wanted for Chip! So I tried it.

Wow. Did it ever make a BIG difference! Our walks are fun again! His tail is held up high and that sour expression? Gone.

Want your pooch to feel the same way?

LINK

Bow Wow Meow CBD Tincture for pets relieved Chip's arthritis pain within a week of his first dose.

It's a liquid that's comes in bacon or steak flavors and is easily given via a dropper.

And Chip absolutely LOVES the taste.

The first time I just squeezed the drops right out into my hand. Chip acted like I'd starved him for days he licked it up so fast! We've since settled upon applying it to a small piece of bread – same thing – it's devoured.

I know what you're thinking about now. That CBD stuff, it's made from marijuana, right? Will it get my dog high? Is it safe?

It's actually made from Hemp that's cultivated to be very low in THC, the chemical that gets people stoned. Hemp has a high concentration of cannibidiol (CBD) and it's nonpsychoactive. That means no “high.”

There are an untold number of products available nowadays infused with CBD and people swear by it. They recognize CBD as an all-natural way to alleviate ailments including pain, inflammation, anxiety, and insomnia.

But for me, the proof's in the puddin'. It got rid of Chip's pain with no negative side effects whatsoever.

Isn't that exactly what you've been searching for?

And here's some great news...

For a limited time Bow Wow Meow is offering their CBD Tinture for HALF off it's regular price. And If you don't see a marked improvement in your dog's health within 30 days, (It won't take that long.) just return it and you'll receive a total refund of your

money with no questions asked.

See, you can't go wrong with this. And your best friend will love you even more for it...

A much happier Chip did!

Why wouldn't you take advantage of this fast, easy, and EFFECTIVE remedy - before it's too late?
